Vision Statement

The Metis family and community is the cornerstone of our nation and is built upon love, respect, honour, strength and heritage.

Mission Statement

Metis families and communities have the right and responsibility to care for children. Michif Child and Family Services will work to strengthen the capacity of families to care for children through culturally relevant community-based programs. We believe in the inherent strength of our families and in the need to build on the capacity of our community to care for and nurture Metis children.

Guiding Principles

- Metis families and communities are the cornerstone of the Metis Nation and the service delivery system must reflect this vision.
 - Responsibility for decision-making regarding Metis children and families lies with the family, extended family and community whenever possible.
 - The organizational structure promotes and supports community governance at all levels.
 - The service delivery system will encompass both formal and informal elements.
 - The service delivery system must be operated in an efficient and effective manner.
 - The service delivery system will be outcome-based and will reflect the core guiding principles of Michif Child and Family Services.
-

For the Metis, family has always been the center of our Nation. Family is part of a larger community that can help our best efforts to raise our child. We are all responsible for ensuring that children are raised in our Nation that doesn't just talk about family values, but acts in ways that values the family. **It** was the vision of our Elders and our past leaders who wanted to see us look after our children. They understood that strong families create a strong nation.

Believing in yourself, your family and the Metis Nation is very important. **It** is with this philosophy that the Metis Government provides services to the Metis Citizens. Supporting our children as they participate in our culture and teaching them to grow into respectful, thoughtful and energized young adults is something we all want to see. Listening to our Elders as they provide advice, guidance and wisdom is something we must always remember. **It** is the knowledge that we have family support through our grandparents, our uncles, aunties, and cousins. This is the foundation to the strength for our Nation. Of course, it is also the ability for our families to provide for themselves and those in need will keep our Nation strong.

We've been able to do this thanks to our innovative approach made possible by the passion and skills of Agency staff, volunteers, and our families. I am especially proud of the Age of Majority program which helps bridge gaps and empowers our young adults who would otherwise be unsupported after they leave the Agency's care.

Believe in yourself, Believe in Metis!

President David Chartrand, LL.D. (hon), O.M.

Message from the Minister:

On Behalf of the President and Provincial Board of Directors for our Metis Government, I am proud to acknowledge and recognize the hard work and dedication of the Michif Child and Family Services Agency throughout the past year.

The Michif CFS Agency is the result of the vision of our commitment to Metis and Inuit families in northern Manitoba. I would like to acknowledge the Elders, board members, staff, and volunteers who were committed to realizing this vision and thank them for their continued service.

I would also like to recognize the Michif CFS Agency Acting Executive Director, Mark MacKay-Chiddenton, for his guidance and support. His ongoing work with the Agency is a key element to realizing the Metis vision of strong, healthy communities across Manitoba.

It is true that the challenges our families face are great, and we must continue to support them in ways that respect the family unit, the community, and our culture that is so important in strengthening our resolve to provide excellent services. These beliefs are at the core of the Metis and Inuit Child and Family Services system, and it is what our commitment to excellence is based on.

Congratulations to the entire Michif CFS Agency team on a successful year of operation. We will continue to advocate on behalf of all our child and family agencies, and together we will build upon the strengths that have embodied the Metis Nation for years to come.

Judy Mayer
Minister of Metis Child and Family
Services

A Message from the Acting Executive Director

While my actual time at Michif Child and Family Services as the Agency's A/Executive Director began in mid December, limiting my time with the Agency for this reporting period to three months, my previous responsibilities with the Metis Child and Family Services Authority, provided many opportunities for me to interact with Agency staff throughout the 2012-2013 fiscal year.

The struggles for this new agency have been very real, but not unexpected. Establishing a solid and effective executive core has been among the more challenging tasks facing the Agency, but we have emerged through the fiscal year with considerable talent and expertise in both the Human Resources and the Finance departments. Our various service teams have had the opportunity to participate in sessions that seem to have benefitted them through discussions about their roles, and identifying the responsibilities the Agency has in supporting them.

What has always been a defining element of Michif Child and Family Services has been the commitment of the staff, at every level of service, to our Metis and Inuit children and families, and the communities we serve. While the building of systems and ongoing development of those systems carry on around them, our service teams, and our support teams continue to ensure that the day-to-day business of providing meaningful family services continues. Our teams reflect the distinctiveness of each of the communities where they provide services. There exists a very large diversity of families in the Michif Child and Family Services service area, an area that is expansive geographically, an area that extends south to the Riding National Park (south) boundary, east to the western shore of Lakes Manitoba and Winnipegosis and north to Manitoba-Nunavut border. The service area contains distinct Metis communities, First Nations communities, small cities, large and small towns, villages, hamlet areas, farms and small settlements. Our agency must respond to the varied needs of our Metis and Inuit families in ways that are respectful and reflective of the diversity within our boundaries.

I have seen significant progress in the Agency's development in these very few months. This is a credit to all of the Agency staff who turn to our Vision, Mission, and Guiding Principles to give meaning and purpose in their work for our Metis and Inuit Children and families despite the many distractions that can potentially divert them. It has been a privilege to be allowed to provide some leadership, direction and guidance to our agency staff as they sincerely work to ensure the well being of our children, families, and communities.

Respectfully Submitted,

Mark MacKay-Chiddenton
A/Executive Director

Michif Child and Family Services Agency

The 2012-2013 fiscal year represents the completion of just one and one half years of operation for Michif Child and Family Services since it officially undertook the responsibilities of its mandate on October 1, 2011. In the early months of this report period, there were a number of staffing departures, the type that might be expected of a new agency of this kind. These were addressed as they arose, and the operational needs of the Agency were met with particular attention being paid to solidifying the organizational chart at the senior level. The Metis Authority played an important role in assisting the Agency as its various new systems evolved, especially in the important areas of the management of operations funding, child maintenance, and other financial matters. Human Resources were also given due attention and what has emerged is a well organized, responsive department that plays a significant role in the day to day operations of the Agency.

While new systems and people new to those systems evolve to a satisfactory level, the business of providing caring, responsive, and effective services to our children and families continues regardless. As the Designated Intake Agency for the Parkland region, Michif Child and Family Services is the first point of contact to the child welfare system for every family and child needing services in the area. Our intake team manages frequently difficult and delicate situations and responds to each intake in a professional and compassionate manner. Michif Child and Family Services provides services to families in a very large geographical area. The Agency has service teams located in Thompson, The Pas, Swan River, and Dauphin; the head office for the Agency is located in The Pas. Our services teams are very much reflective of the regions in which they provide the full range of family services. They have a high level of knowledge as to the particular character of each of their communities and have the ability to respond to clients very much according to the unique needs of each family.

The Agency operates three shelters for children requiring short-term emergency care, longer term situations where sibling groups are able remain together, and for children who could benefit from an environment that is stable and that can provide assessment services. Our Four Winds shelters are located in Dauphin, one being licensed for three children, the other for four. Our Sunrise House program is located in Swan River, and is licensed for up to six children.

New initiatives that are being developed during this report period include reviewing and enhancing our after-hours response, developing a permanency planning framework that will more effectively meets the needs of our permanent wards, and re-establishing a

distinct resource department that will better enable the Agency to recruit, license and support foster homes, kinship placements and specialized foster homes.

Consideration is being given to ideas that will see the Agency developing initiatives that enhance its standing, and role in the four very distinct regions where we have our offices. It is our hope that our agency can be regarded as an important community resource that better reflects the distinct needs of each region, and one that makes a meaningful contribution to the well-being of children and families in those regions.

FINANCIAL REPORT

Introduction:

I believe a short personal introduction is in order. I am First Nation Woman originally from Sandy Bay First Nation. I have been working in the area of finance and accounting for the last 30 years, specifically with non-profits, and health organizations. I am a fifth level CMA (Certified Management Accountant). I was hired in January 2013 as the Director Finance for Michif CFS.

The following is a very condensed overview of pressing issues at the time of hire:

The first priority was to deal with the application of Individual Rate Adjustment Protocol (IRAP) introduced by the province June 1, 2012. The result of IRAP was the disallowance of certain support services within the child maintenance program. As of March 31, 2013, the amount unrecovered from the province totaled \$776,286.

At the time this report was prepared; Michif CFS re-billed \$121,247 of the amount unrecovered for the period covering April 2012-August 2012, and has received \$15,500 of there-bill. The September 2012 re-bill is currently in the works for re-submission and the subsequent months of October 2012 – March 2013 will also be re-billed and re-submitted to the province for recovery.

In addition, the province rolled out a new billing template. Currently, the provincial IT people are still de-bugging the template. The province provided no training on this template and staff has had to learn the new template on their own. It is cumbersome, but at least the version is in an Excel spreadsheet format.

The other pressing item was expiration of the vehicle leases. Michif CFS had been leasing four (4) from the provincial department VEMA. A cost analysis was prepared to determine whether Michif CFS should renew the VEMA vehicle leases or go with a local dealership in The Pas. As it turned out it was more economical to lease with the local dealership in The Pas. Michif CFS leased six (6) new vehicles.

On the accounting side of things, balance sheet accounts required consideration amount of reconciliation and adjustments in order to prepare for the audit. The more an organization does to prepare its records for the audit, the less audit bill will be.

The final area that required tightening was approvals for disbursements, reviewing and signing off on payroll cheque registers, and bank reconciliations. This process has now been put into place.

Annual Budget:

The annual budget for Michif Child and Family Services for the fiscal period ending 2012/13 is as follows:

MICHIF'S ANNUAL FUNDING 2012-13:	
Core	\$1,060,647
Protection	\$1,965,642
Prevention	\$203,076
Designated Intake Agency	\$895,678
Designated Intake Agency- Prevention	\$320,000
	<u>\$4,445,043</u>

The financial report presented is preliminary and will change once the 2012-2013 audit is complete. The audit is scheduled to commence July 22, 2013.

Operations:

Michif core operations was adjusted to show income as equal to expenses. Eligible costs were allocated to the DIA prevention program. The DIA program had a surplus of \$227,297. The surplus revenue was deferred. Currently accumulated DIA program deferrals for the last two fiscal periods is \$578,304. It is obvious that the DIA program will require a plan as to how this funding is to be spent should Michif CFS continue to receive this funding in the future.

Child Tax Credit:

To date Michif has collected \$762,075 in child tax credit. The agency should only have six months of this credit before it is required to reimburse the Province of Manitoba back. Michif has collected approximately 18 months of the child tax credits. A reimbursement plan will be required once the Child Maintenance Program's unrecovered billings are completed and submitted to the province for recovery.

Metis Child and Family Services Accounts Receivable:

At the fiscal period end of March 31, 2013, the balance of the AIR was \$235,000. The majority of receivable was due to Michif staff providing direct support services for Metis CFS's Children in Care (CIC). The equitable and fair decision was to write off the amount from the 2011-2012 fiscal period because Metis CFS was not aware of the \$139,000 AIR and re-bills to the province can only go back retroactively one year. The remainder, totaling \$96,000 also had to be reviewed and it was determined that approximately \$46,000 of the accounts receivable was the result of miscoding. The balance of the Metis CFS AIR after adjustments was \$50,919.

Children in Care Maintenance:

Overall the CIC programs ran a deficit of \$398,435. The major contributing factors are as follows:

- The institution of IRAP by the province in June 2012, which denied funding for support services, specifically for social work assistants;
- The write off of the Metis Child and Family Services Accounts Receivable of \$139,000;
- The accumulation of costs for direct support services provided by Michif staff for other CFS agencies but not set up to as receivables;
- The acquisition of goods and services not billable back to the province.

Conclusion:

It has been very challenging but very rewarding. The goal is ensure the limited resources the agency receives are used for its intended purpose, the well being of Children in Care.

Thank you!

Eunice Roulette, Director of Finance

HUMAN RESOURCES ANNUAL REPORT

A message from the Director of Human Resources

I am pleased to present the annual report for Human Resources to Michif Child and Family Services. I started with Michif on August 21, 2012 relocating from Ontario with my partner. Prior to my employment with Michif, I worked for a major global corporation for seven years as a Human Resource Consultant and for three years as Director of Administration for a non-profit organization. My diploma in Human Resources was obtained in 2000 and since then my experience has only grown in the organizations that I worked for.

It has been a busy year for Michif and it is important that our priorities continue to move forward and to be the employer of choice. As the Director of Human Resources, I have committed to the following:

- Equity- Metis/Inuit preference
- Recruitment- Ensuring prompt recruitment of new /vacant positions. Develop strategies for retention.
- Communications- Continue to improve on communicating to employees at all levels in an efficient and timely manner
- Employee Service- Ensuring accessibility and prompt professional service to employees and all services are understood by employees
- Recognition- Ensuring employees are awarded annual increments
- Development- Focusing on strengthening skills for **all** employees and developing compensation strategies to retain our employees by investing directly into them

This report is intended to provide you with an overview of activities throughout the fiscal year.

Sincerely,

Trish Arrowsmith
Director of Human Resources

2012-2013 AT A GLANCE

AUGUST 2012

- New hire - Director of Human Resources

SEPTEMBER 2012

- Collective bargaining commenced with MGEU

OCTOBER 2012

Parkland Region Family Services

Annual Report

2012-2013

Greetings from the Parkland Region. The 2012-13 year has been a busy one with a lot of changes as we embarked on our journey as a new Agency. It has not been an uneventful one, as with anything new there is always adjustment periods, changes and many learning opportunities. We are very grateful for the understanding and patience that our children, families and collaterals have shown during this transition period. It is through our work together that we have begun to flourish as Michif Child and Family Services.

We have seen many staff changes over the last year as we welcomed new individuals and saw other staff move on to new learning opportunities. We currently have three offices and two shelters located in the Parkland Region. Our 505 Main Street Dauphin office has a staffing compliment of an Intake Supervisor, four Intake workers, Child Abuse Coordinator, Family Services Supervisor, six Family Service Workers, two One to One Workers, Family Support Worker, two Administrative Assistants, and Receptionist. Our 611 Main Dauphin office has a Kinship Care Worker, Resource Worker, Shelter Team Leader, Resource Coordinator and two Administrative Assistants. Our Swan River office is home to a Family Services Supervisor, four Family Service Workers, Intake Worker, Designated Intake Mentor/Worker, Resource Worker, One to One Worker, Administrative Assistant and Receptionist. We currently have staff that are enrolled in the Bachelor of Social Work program and training is offered on an ongoing basis.

Our Shelters, Four Winds is an Emergency Assessment Unit licensed for four children ages 0-11 and most recently we have added an additional unit that is licensed for three children ages 8-12. Sunrise House which is located in Swan River is also an Emergency Assessment Unit that is licensed for four children 11-17 years of age.

Currently we have 21 licensed Kinship Care foster homes and 18 licensed General foster homes. We also support 28 Place of Safety homes. We are recruiting foster homes on an ongoing basis to be able to meet the needs of our children with the hope of keeping our children within their home communities.

In August of 2012 some of the staff and children travelled to Blue Lake in the Duck Mountains on a camping trip with funds that were raised through a Bake and Yard Sale.

Some of the children tested out their baking skills and were quite successful. We are in the planning stages for this year's camping trip and are looking forward to another successful trip. The activities enjoyed were swimming, fishing, making bannock, soup and story-telling.

In December 2012 we hosted a Christmas party for our children in care with their foster families with food, entertainment, music and gifts. We are hoping to make this an annual event.

Michif Child and Family Services Dauphin is the designated intake Agency for the Parkland region. In the 2012-13 year the Agency received 663 referrals and attached is a breakdown of intakes in terms of Agency, category and type of intake. Of the 663 referrals received 346 of these were transferred to Michif Child and Family Services, to our Family Service units in Dauphin and Swan River.

Michif Child and Family Services has a Child Abuse Coordinator who facilitates two Child Abuse Committees, one in the South Region – Dauphin and one in the North Region- Swan River. These joint Committees consist of 14 members for the Dauphin area and 7 for the Swan area. Members are comprised of Probations, Mental Health, RCMP, School Division, Crown Attorney and Agency representation. Committees meet on a monthly basis to review and discuss child abuse cases and determine whether or not an individual is to be registered on the Child Abuse Registry. In the 2012-13 year 3 individuals were registered. The focus for the 2013-14 year will be to establish a Committee in the Thompson area and to continue to meet and follow through with Child and Family Service protocols.

We are looking forward to another year of providing the best possible services we can to our children, youth and families and are grateful for our communities and elders input into how we can better meet their needs.

Megwetch

Supervisor, Parkland Region

The Pas Regional Service Team Annual Report

2012-2013

On October 1, 2011, our agency became Michif Child and Family Services which was an exciting time for all of us. There were many challenges to overcome as a newly created agency. With perseverance and a lot of hard work from all staff we were able to meet the challenges and develop an exciting new agency.

With the development of this new agency it was decided the main office would be in The Pas MMF building our staff were already located in the basement of this building. We moved from our lower level offices to the main floor. We had a new Executive Director, Assistant to the Executive Director, Assistant to the Human Resource, Human Resources, Chief Financial Officer, and finance staff all in one office. A Director of Service was hired a little later in the year and was housed in Dauphin but traveled to the various areas for the agency.

During this time of transition it was found due to geographic, it would be much more advantageous to hire a supervisor for the Thompson area rather than have one supervisor traveling between both places. On May 22, 2012, Melissa Ryan was hired as the new Thompson Supervisor.

In June, 2012, a new Executive Director was hired as our previous Director retired. Again the agency went through a great deal of change with the change of executive management all taking place within a few months. In December, 2012, our new Executive Director went on Maternity leave so again we were faced with new management.

Within 2012, we were introduced to the concept of IRAP, a new program developed by the Province to try to control spending by agencies. This was quite a challenge for workers as when the Individual Rate Adjustment Protocol was implemented in the North we were not aware of the concept as we were not immediately made aware of the changes coming. This may have been due to the change over in executive staff. We finally received the training for workers on this and are now up to speed on what needs to be done to get foster home rate approvals.

In the past year, The Pas Child and Family Service team had been working towards updating Child and Family Services information System (CFSIS). Our goal was accomplished by the end of March, 2013, and the staff received a certificate from the Metis Authority for the most improved work on CFSIS. We were trying to get our CFSIS up to date due to funding and did not want any of our cases not funded due to CFSIS issues.

Over the past year, we had our resource worker go on long term illness and moved the social work assistant whose position is now redundant, into the resource position in an acting capacity. We had a long term social worker leave the agency to relocate to Winnipeg.

We have had movement of cases going in and out of the system but our case load had only fluctuated between 50 to 60 cases. These cases are a variety from Protection to Permanent Wards.

Case Categories

Thompson Region Annual Report 2012-2013

On October 1, 2011, our agency became Michif Child and Family Services. There were many challenges that we faced as a new agency. With perseverance and a lot of hard work from all staff we were able to meet the challenges and develop an exciting new agency.

During this time of transition it was found due to geography, it would be beneficial to hire a supervisor for the Thompson area rather than have one supervisor traveling between two regions. On May 22, 2012, I was hired as the new Thompson Supervisor and previously worked as a front line social worker for the agency since November 25, 2009.

In June, 2012, a new Executive Director was hired as our previous Director retired. Again the agency went through a great deal of change with the change of executive management all taking place within a few months. In December, 2012, our new Executive Director went on Maternity leave so again we were faced with new management.

Within 2012, we were introduced to the concept of Individual Rate Adjustment Protocol, a new program developed by the Province to try to control rates for children in care and high costs associated with this. We received the training for workers on this and are now up on what needs to be done to get foster home rate approvals.

In the past year, Thompson Michif Child and Family Service team has had a huge staff turnover: One of our long term social workers resigned after being off on sick leave for over a year. Our social work assistant was promoted to social worker as she was in the process of obtaining her BSW part time with the Faculty of Social work in Thompson. After our long term workers departure we had two other social workers hired who did not work out. Finally in December we hired a term position and our office finally had full staff. In July 2012 one of our full time social workers went on Maternity leave and is due back in August 2013. In February our administrative assistant left the agency and a new one was hired.

The Thompson office has been working hard for the past couple of months on cleaning up CFSIS. Our goal was accomplished by the end of March, 2013, for the most part everything is updated but we still have a little bit left to do due to staff shortages.

Another area that the Thompson office has been working on is getting all of the Alternative Care Homes licensed. To date all of our Alternative care homes are now licensed with help from other regions of the agency.

Below the cases have been divided into categories;

30 Protection Cases, 23 Children in Care, 2 Voluntary Family Services, 1 Expectant Parents, 4 supervision cases, and 8 Alternative Care Homes.

Each Worker takes care of their regular cases and the Alternative Care Homes where children are placed unless they belong to another agency. Recently a foster care worker has been assigned to our alternative care homes this foster care worker is based out of the Pas, MB.
